Art Unit: 1756

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5, drawn to styryl dyes.

Group II, claim(s) 6-13 and 15-20, drawn to light absorbing compositions and optical recording media using styryl dyes.

Group III, claim(s) 14, drawn to methods of making styryl dyes.

2. The inventions listed as Groups III and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The X references cited on the PCT SERACH REPORT evidence that any feature which unites the inventions fails to make a contribution over the prior art. See PCT rule 13.2

3. A telephone call was made to Anne M. Kornbau on June 9, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. The examiner of record examines the claims of group II.
